

# Exhibition year 2025

**An eventful and successful exhibition year 2025 lies behind us.**

This year has brought many changes for us: With the rebranding and the associated brand transition, we are proud to have presented and experienced our events under the new name **Astemo Aftermarket Germany GmbH**. From smaller regional training fairs to major international automotive and motorcycle events, the year offered an impressive range and many valuable encounters. With the conclusion of Automechanika in Dubai, which marked our final exhibition of the year, we look back on a thoroughly successful exhibition season.

Our heartfelt thanks go to all visitors, partners, and exhibitors who made this year special and successful. With great anticipation, we now look ahead to the upcoming events in 2026, especially **Automechanika Frankfurt**. We are already looking forward to welcoming you back at our booths there.

**Until then, we wish you and your families a wonderful, peaceful, and restful time.**
