

Change of data supplier name in TecDoc catalogue

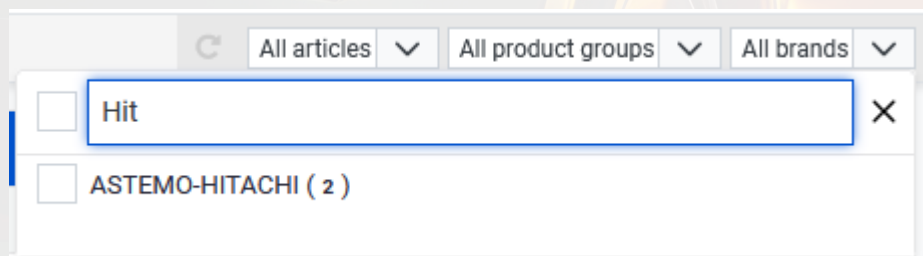

Our company was renamed from Hitachi Astemo Aftermarket Germany GmbH to Astemo Aftermarket GmbH effective from 5th of June 2025.

With this important change, we also changed our brand name on TecDoc effective from 15th June 2025.

The current preliminary name is “ASTEMO-HITACHI”. This illustrates the close relationship between our new company ASTEMO and the past with HITACHI.

After a transition period of 6 month, our company name on TecDoc will completely change to “ASTEMO”. The TecDoc data supplier number will always remain at 449.

To find our products during the current transition period you need to keep in mind that you whether only scroll down to “A” in the search results or you use the brand selection menu on the top right side:

If there are any questions occurring regarding this name change, please don't hesitate to contact our technical support:
