Exhibition year 2023

A very successful trade fair year 2023 comes to an end. From smaller local training fairs through to global automotive and motorbike exhibitions the year offered Hitachi Astemo Aftermarket Germany GmbH a lot of variety. With the conclusion of the last trade fair, we can look back on a very successful year.

We would like to thank all visitors and exhibitors who made this exhibition year a unique and successful one.

We are already looking forward with great anticipation to upcoming events in 2024, including Automechanika Frankfurt, and look forward to welcoming you back to our stands.
