

# Sensor Technology by Astemo

Modern vehicles today have an exponentially increased number of sensors compared to those of a few decades ago. Due to our extensive OE heritage, the Astemo Aftermarket portfolio contains a very broad range covering many sensor product families. This allows us to offer our customers comprehensive vehicle coverage across many key product groups.

16 different types of sensors are featured in our current portfolio. Continuous growth in this important area sets the course for a future-proof product range.

## Sensors in detail

### Air Flow Sensor

Astemo is the Number 1 supplier of Air Flow Sensors worldwide!

<b>210</b> SKU's in range
<b>&gt; 6.400</b> Covered Ktypes
<b>&gt; 140M</b> Coverage in EMEA*
